

#### Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

#### Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

#### Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

#### Learn how to use the facilitation tools

Use the Facilitation Superpowers to run a happy and productive session.

1

#### Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

2

#### Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

**TIP**  
You can select a sticky note and hit the pencil (switch to sketch) icon to start drawing!

JAGANATH

Tracking whether protection and restoration measures are working.

Analyzing electrical conductance of electrolytes dissolved in the water.

Include measures of toxicants, insecticides, herbicides and metals.

Determining how safe water is to drink or expose to your skin.

JAYANTH

Monitor and evaluate the water quality.

Analyze the quality indicators such as nitrates, bioindicators, dissolved oxygen.

Perform different types of water testing techniques such as physical and chemical tests.

Describing the water quality in permanent points, data processing.

JANARTHANAN

Detecting water pollution such Ph, electrical conductivity.

Increasing and monitoring the optimum salinity in the water.

Understand the water quality requirements and affecting factors of water quality.

Detecting the concentrations of organic and inorganic chemicals in water.

JEEVA

Monitor the main parameters to access the state of water resources.

Easily applicable applications used

Incorporating fundamental water quality components.

Detect the water quality degradation typically.

3

#### Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

**TIP**  
Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

Monitor the main parameters to access the state of water resources. Detect the water quality degradation typically.

Model Analogy

Detailed UI which is user friendly. Datas are stored and model is trained using AI algorithm.

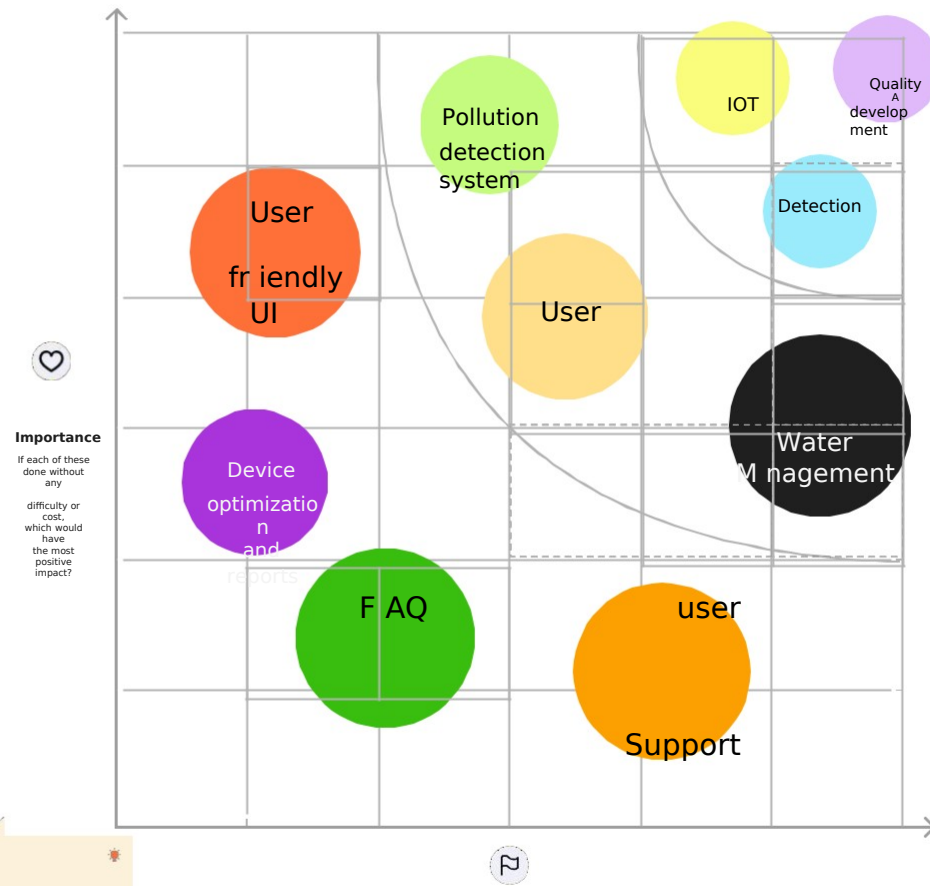

Applications:

4

#### Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

Importance

If each of these done without any difficulty or cost, which would have the most positive impact?

TIP

#### After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

#### Quick add-ons

#### Share the mural

Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.

#### Export the mural

Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

#### Keep moving forward

#### Strategy blueprint

Define the components of a new idea or strategy.

[Open the template](#)

#### Customer experience Journey map

Understand customer needs, motivations, and obstacles for an experience.

[Open the template](#)

#### Strengths, weaknesses, opportunities & threats

Identify strengths, weaknesses, opportunities, and threats (SWOT) to develop a plan.

Iot describes the network of physical objects that are embedded with sensors, software, and other technology for the purpose of exchanging data with other devices.

Regardless of their importance, which tasks are more  
feasible than others? (Cost, time, effort, complexity, etc.)

**Feasibility**
